PERSONAL TRAINING CLASS DESCRIPTIONS

These monthly, ongoing classes will give you the visible results you've always wanted PLUS the benefits of SUPERB PERSONAL TRAINING for a fraction of the cost. Enjoy our team approach philosophy, camaraderie and accountability as you gain knowledge; lose weight, inches and body fat!

Challenge Classes

- **Cross Challenge:** Level 2. Weakness will no longer be a word in your vocabulary when you accept the "challenge" and train your way to the next level of fitness. Your mind will be "challenged" to focus as your body is conditioned to meet the demands of strength, endurance, and interval training. The training technique will force you to cross the line of "I won't" and break through the barrier of "I can't". A body will never change without challenge so take yourself to the next level with Cross Challenge.
- **SuperHit** (Super High Intensity Training): Its back. It's better than ever! It's time efficient and incorporates strength, flexibility and cardio in the same workout! Strength exercises are combined with endurance/aerobic exercises, to incorporate the benefits of both a cardiovascular and strength training workout. Break out of your old routine and GET THE RESULTS you are looking for. Gain muscle, increase metabolism, increase cardiovascular fitness, muscular strength and muscular endurance while you lose fat!
- **Triple Shot***: Interval training with a shot of CrossFit. 30 min. class
- **TRX Circuit Training:** A total body workout using TRX Suspension Trainers. Watch your fitness level increase as you progress. Build strength, balance, flexibility, and core stability. You will maximize your training time and achieve results. High intensity cardiovascular conditioning, blast calories and increase lean muscle mass.
- **Wellness Challenge**
Beginner Level Group Training Class: Designed for wellness group members who are ready for a change but have more limitations such as Joint Replacements and Balance Issues.
Advanced Level Group Training Class: A more advanced personal training class that will push your physical limitations. Both Classes will incorporate new exercises, a varied exercise program, balance & agility training, strength training & cardiovascular training.

In Mo CrossFit: Creating Functional Fitness For Life

- **CrossFit:** CrossFit is constantly varied, high-intensity, functional movement. The aim of which is to forge a broad, general and inclusive fitness. IMF is fortunate to have 8 CrossFit level One Certified Trainers. Each trainer brings a unique dimension (and programing) to the classes he/she teaches, while following the basic Cross Fit guidelines. You are welcome to visit any CrossFit class to determine which best fits your style and schedule. Unlimited CrossFit clients can rotate within the classes signified by the black boxes with red font or the white boxes with the black font. To ensure proper form, training, safety and initial comfort for all attendees it is highly recommended that participants complete a 101 class or one-on-one sessions with a CrossFit Level One Certified Trainer. **For more info, please contact Ryan at 343-5678 ext. 123**
- **On-Ramp Personal Training:** Three personal training sessions for the basic CrossFit movements.

Specialty Programs

- **OCR Training:** Emphasis on skill and stamina needed to perform in a Tough Mudder and Spartan Race. Gradual progression to prepare for the event.
- **Taekwondo:** At Chico Taekwondo Academy we share with our students all the values that this Martial Art has to offer. We teach them how to be confident but humble, powerful but easy going, skillful, but a peacemaker.

Youth Programs

- **Kids Cross Training:** A strength-and-conditioning program that is specially designed for kids and teenagers and their specific developmental needs and helps them to develop a lifelong love of fitness. In a group setting, children and teens participate in fun and engaging workouts that deliver measurable results and prepare them to be well-rounded athletes. Ages 8-12
- **Teen Cross Training:** A strength and conditioning program designed for 13-18 years old athletes and non-athletes alike. The program combines age-appropriate weightlifting and gymnastics with high intensity training to deliver optimal fitness and performance, as well as establish a lifetime love of fitness. Proper weightlifting techniques are taught, under the watchful eye of our Crossfit certified trainers, to enhance strength and power, while also focusing on basic gymnastics to increase agility, mobility and flexibility.
- **Teen Strength Training:** This class is designed for young developing athletes who want to achieve their fullest potential when it comes to their sport. An Olympic weightlifting focus used to develop explosive movements such as snatch and clean-n-jerk that translate to a faster, stronger athlete.
- **Taekwondo for Kids:** It's not about teaching them how to fight! It's about discipline, values, self-esteem, confidence, focus and concentration. At Chico Taekwondo Academy we share with our students all the values that this Martial Art has to offer.
